

Keep Your Shirt On!

Well, the Editor of The Bulletin has been smoked out at last! He has actually fessed up that he published a fraudulent financial "plank" from the Republican platform of 1896; And, as usual, he rests the blame on one of his exchanges, from which he made the clipping! Then he seeks to justify himself by quoting from another Republican platform, wherein "standard" money is mentioned. But he ought to know that the "qualifications" which accompany the declaration in the later platform are the very things which justify the use of the terms "standard money" therein. Of course, neighbors after your honest confession of guilt we'll put our shirt on—and won't take it off any more till McKinley is elected!

If you have friends visiting you, or if you are going away on a visit, please drop us a note to that effect.

Mrs. Balle H. Longenecker left this week for a visit of some days with friends at Lexington.

Mrs. George Haysden of Boone county, Missouri, is visiting her kinsman, Mr. W. R. Gill, in the county.

Mrs. Mary Smith and daughter, Miss Belle, have returned from a visit to relatives and friends at Georgetown, O.

Rev. F. B. Politt, who is located at Covington, with his wife and child, were visiting at Washington the past week.

Miss Mary W. Marshall leaves in a few days, accompanied by Mrs. Jane T. Marshall of Fleming county, for a visit of some length to the daughter of the latter in North Carolina.

John C. Everett sold a house and lot in Culbertson to James Purdon for \$375.

Born, on Friday last, at Springfield, Ill., to Mrs. John Hurtt, see Miss Lizzie Suduth of this city, a fine son.

Superintendent Ed. Slatery and wife of the County Infirmary will dine the members of the Fiscal Court today.

Mr. Thomas A. Davis, Editor of THE LEADER, has been appointed one of the Vice-Presidents of the big Sherman meeting at Portsmouth next Tuesday.

Ex-President Benjamin Harrison was a distinguished passenger on the Cincinnati Express that passed this city this morning over the C. and O. at 6:30. He was on his return from a short tour of Virginia.

What "neighborhood Fair" was in progress Saturday? There was a Fair (the Eagle) in progress the afternoon Mr. Thomas spoke at Maysville, but we haven't heard of any Fair near there last Saturday.—Bulletin.

There are a great many things that the Editor of The Bulletin never heard of; and it is not surprising, therefore, that he hadn't heard of the Colored Ladies' Fair which was held on Banion Hill, three miles from Maysville, on Thursday, Friday, and Saturday, October 1st, 2d and 3d.

Now will you be good?

FISCAL COURT.

Grinding Out Enormous Claims Against the Poor Taxpayer.

The October term of the Fiscal Court met yesterday.

The Commissioners were ordered to pay off the indebtedness of the Kenton Station Turpike Company, and to convey the tollgate property to anyone who wants to buy it.

The Germanstown and Lowell Turnpike was offered to the county and accepted as a gift from the stockholders.

The Twolick Turnpike was also accepted by the county.

Among the claims presented was one of \$268 by Squire John T. Branel for Justice's fees.

The vote for its allowance stood—

Yea—John T. Branel, Thomas Forman and L. McIlwain—3.

Nay—John J. Purian, Powell B. Owens and C. W. Williams—3.

Being a tie, Squire Miller cast the deciding vote in favor of the allowance.

There was a large number of other claims passed; but THE LEADER doesn't want to paralyze the taxpayers by giving them here.

Maybe they'll rise up in their night some sweet day and stop those wholesale raids on the County Treasury.

lished he asked for the bill, and was told it was \$1 in American money or \$2 in Mexican money. He handed the clerk a \$5 National Bank note and was given eight Mexican silver dollars in change!

The people there are wholly dependent upon silver for their circulating medium, and as its coinage is "free and unlimited" it has driven out gold entirely. An evidence of this was found in the case of an English herder, who some weeks ago wanted a \$5 goldpiece for a keepsake, and finally got it by paying \$10 50 for it.

This same herder, by the way, is no novice; for, like Mr. Sewall, one of the running-mates of Mr. Bryan, he makes his contracts with the gold clause; that is, he sells his cattle in Texas for American money and pays his employees in Mexican silver!

With the prices given above for provisions, and the wages paid mechanics and laborers, it is not reasonable to suppose that many Mexican workmen have Brussels carpets on their floors and ham and eggs on their tables.

The great majority of the inhabitants scarcely live—they just exist.

They are greasy, filthy and indolent—and you couldn't get one of them to answer a "burry call" any more than you could get a Mason county Free-silverite to acknowledge that he talks through his hat.

Their chief food—in fact their only food—consists of a soup made from a brown bean, which has a bitter taste, and of tortillas. The latter are made from corn, somewhat after this fashion: The corn is soaked in water over night, and in the morning the lady of the house rigs up a piece of stone something after the manner of an ordinary washboard; on this she places the corn, and then she indulges in a process of maceration with a stone resembling a rolling-pin, until the mass becomes a tough dough—almost as tough as some of Bryan's arguments.

This is then made into patties by the filthy white hands and taper fingers of the free-grassers, and these are placed upon a hot and a dirty piece of sheet iron and baked.

After a hearty supper of this sort the family is ready to retire with the goats and dogs and donkeys, all of whom sleep in the same room!

The American workman who would better his lot cannot do so by voting for the introduction of Mexican methods in this country.

Free silver is largely responsible for existing conditions in that country.

It would soon reduce our monetary system to the level of that of Mexico.

What the American workman needs is work, that he may be able to get some of the honest dollars that are awaiting the restoration of business conditions.

What the American farmer needs is a market for what he raises; and this he will have when the mills start up and 4,000,000 idle workmen have money to buy his products.

A vote for McKinley will be a step in the right direction.

Burgains in Sterling Silver Spoons and Forks; also in Rogers & Bro's 1847 Knives, Forks and Spoons. Never before have these goods been sold so cheap as P. J. Murphy the Jeweler is offering them.

A Louisville lady has authorized The Lexington Leader to bid \$300 in gold that McKinley will be elected President, the conditions being that the entire wage, \$1,000, shall be divided among the poor of Louisville and Lexington. As yet no Bluegrass Bryanite has come forward to cover the money.

Odd of two to one on McKinley carrying New York county as a standing offer on the Stock Exchange. Any reasonable wage at these odds will be accepted if any taker of the market can be found. No Bryan money has been offered even at these tempting odds. A gold clause will be inserted in the contract if desired.

The reader of this paper will be pleased to learn that there is at least one dreaded disease that someone has been able to cure in all its stages, and that is Catarrh. Haily's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Haily's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and restoring the system to its normal state. PUT UP OR SHUT UP!

GEORGE B. COX WILL ENTER-TAIN BRYAN BLOWHARDS.

Commercial Tribune.

Mr. George B. Cox proclaims his confidence in the election of McKinley next month.

Mr. Cox declared last evening that the best evidence of his political belief is expressed in the numerous betting propositions he makes here. He said that while some Democrats are claiming everything for Bryan and Free-silver, it is difficult to find an advocate of this political faith ready to place money.

"I cannot find anybody willing to put up money," said Mr. Cox. "My propositions speak for themselves. I notice in a copy of The New York World sent me some offers from Democratic sources, but the propositions are unfair from a betting standpoint. The offer of \$1,000 to \$5,000 does not offer inducement enough."

Asked how many electoral votes McKinley will receive, Mr. Cox said he could not tell.

"My bet is to be settled by the vote for McKinley. I do not want to wait for the Electoral College returns. The vote for McKinley is what I have all my propositions on."

MR. COX'S PROPOSITIONS.

The bets offered by Mr. Cox stand for ten days, and will be taken at The Commercial Tribune office, where a man and the cash will all come.

Following are Mr. Cox's propositions, which offer a variety of inducements to Bryan and Free-silver champions:

Will bet \$500 to \$450 that the McKinley Electors will receive more votes in the state of Indiana than the Bryan Electors on November 3d, 1896.

Also \$500 to \$450 in the state of Illinois.

Also \$500 to \$450 in the state of Michigan.

Also \$500 to \$450 in the City of New York.

Also \$500 to \$450 that the state of New York will give 40,000 more votes for the McKinley Electors than for the Bryan Electors.

Also \$500 to \$450 on the state of New Jersey.

Also \$1,000 to \$850 that McKinley Electors will receive more votes than the Bryan Electors in Ohio.

Also \$750 to \$1,000 that the McKinley Electors will receive more votes than the Bryan Electors in Kentucky on November 3d, 1896.

OR GENERAL RESULT.

\$1,000 to \$500 that the McKinley Electors will receive more votes than the Bryan Electors in the United States.

OR ODDS.

\$1,000 to \$350 McKinley Electors will receive more votes in Ohio than the Bryan Electors on the 3d day of November, 1896.

\$1,000 to \$500 that the McKinley Electors will receive 20,000 more votes than the Bryan Electors on November 3d, 1896.

\$1,000 to \$500 that the McKinley Electors will receive 20,000 more votes than the Bryan Electors on November 3d, 1896.

**WE'RE FOR AMERICA! AMERICANS!**

"I believe that it is a good deal better to open the 30th of the United States to the Labor of America than to open up the State of the United States to the silver of the world."—WILLIAM MCKINLEY.

When we test the outcry against the act of 1873, with the sober facts shown by official records, it appears simply ludicrous. The total number of silver dollars coined from 1792 to 1873 was 8,001,238, while the number of trade dollars issued under the coinage act of 1873, containing 7 1/2 grains more silver than the old dollar, was 39,565,994, and the number of standard silver dollars coined under the Bland-Allison act of 1878 was 130,790,641, or fifty-four times the number issued before 1873.—SENATOR JOHN SHERMAN.

COLONEL W. E. HOBSON, the independent Republican candidate for Congress in the Third District, has withdrawn from the race and announces that he will support Hon. C. M. MILLIKEN, the National Democratic candidate. He is also for MCKINLEY and HOBART.

WILLIAM MCKINLEY says if free coinage of silver means a 33-cent dollar, then it is not an honest dollar. If free coinage means a 100-cent dollar, equal to a gold dollar, as some of its advocates assert, we will not then have cheap dollars, but dollars just like those we now have, and which will be as hard to get. In this case free coinage will not help the debtor or make it easier for him to pay his debts.

THE Philadelphia Press says, about eighty silver mine owners in this country are credited with an aggregate wealth of over \$200,000,000. That is an average of over \$7,000,000 each. And yet their agent, BRYAN, pretends to speak in the interest of the poor man. How those mine owners must sneer when they think of their paying the expenses of a man to go about the country to assuage the rich, while aiming to double the enormous fortunes of these "bonanza" mine owners.

HON. JOSEPH LEVERING, the Prohibition candidate for President, has returned to Baltimore after a month spent in the Northern and Western states. During his absence Mr. LEVERING spoke in all the large towns in New England and New York and extended his tour as far West as Minnesota. Speaking of his trip Mr. LEVERING said:

"One of the best signs of the times, in my judgment, is that meetings of all sorts and all parties are attended by such crowds and classes of people as have never taken much interest in politics before. The people everywhere seem anxious to hear these new questions discussed and will turn out to hear anybody. I think MCKINLEY will be elected. The chances of his receiving a large majority seem to be improving every day. The Prohibition vote, I am confident, will be larger by far than ever before."

A foul breath is one of the greatest afflictions that a man or woman can have—an affliction not only to themselves, but to those with whom they come in contact. A foul breath is a great discourager of affection. It would probably be more so if people only realized what bad breath means. Bad breath is one of the symptoms of constipation. Some of the other symptoms are sour stomach, loss of appetite, rash and itchy headache, dizziness, heartburn and distress after eating. These things mean indigestion. They lead to dyspepsia and worse things. They all start with constipation, and constipation is inseparable because it can be cured—easily, quickly and permanently by the use of Dr. Pierce's Pleasant Pellets. They give to nature just the little help she needs. There is no case of biliousness, constipation, indigestion, "heartburn," or any of the rest of the night-mare breeding brood, that these little "Pleasant" pills will not cure.

## The Ledger's Leaflets—No. 16.

What was the "Crime of 1873"?  
Was it really a crime?  
Was it committed secretly?  
Why was it enacted?

These are questions which every voter ought to understand before he accepts the charge that silver was secretly demonetized or the coinage of the silver dollar stopped by stealth.

From the passage of our first mintage act in 1792 down to 1870 there had been dozens of changes in our coinage laws until the statutes governing the production of the coins of the United States looked like a crazy quilt. In 1870, with a prospect that the Nation would soon return to the use of metallic money, which had been suspended during the war, the Treasury Department recommended to Congress that it pass a general act governing the production of the coins of the United States, and a bill was sent to Congress for that purpose.

This bill omitted the standard silver dollar, of which scarcely any had been coined for many years, and none had remained in circulation. The report which accompanied the bill when sent to Congress specifically called attention to the fact that the silver dollar was omitted. The bill was submitted to the leading officials and ex-officials of the Mint, and they discussed the omission of the dollar in written communications to the committee of the Senate, after which the committee reported the bill to the Senate, saying in its report "The coinage of the silver dollar piece is discontinued in the proposed bill."

• • • • • The present gold dollar piece is made the dollar unit in the proposed bill and the silver dollar piece is discontinued."

The bill was discussed over and over again in the Senate and House, was printed no less than thirteen times by the Treasury Department and Congress, the debates in House and Senate filled 144 columns of The Congressional Globe, and the final action on it was not had until two years and ten months after its presentation to Congress.

The following table shows the number of times the bill was officially before Congress during its consideration. Read it and see if you can believe that there was anything "secret" in its passage:

## NATIONAL DEMOCRACY.

As long as there are 7,000 Democrats who have not bowed the knee to the false gods of Populism, these 7,000 constitute the Democratic Party, though six million traitors say no—Louisville Post.

The former Democratic paper of this city having joined the Populist party, THE LEXINGTON, the only sound money paper now printed in Mayville, cheerfully tenders this column for use of the old-time Jeffersonian Democrats.

The social at Mitchell's Chapel last night was a success, and the Endeavorers wish to thank all who kindly took part, especially the orchestra and those who contributed, and hope in the near future to entertain you again.

TO CURE A COLD IN ONE DAY.  
Take half a bottle of Chamberlain's Cough Remedy. All drugs refund the money if it fails to cure. See H. Q. Gorman, a farmer living on Rt. 10, was bitten by a rattlesnake one day last week and died in great agony. He captured the snake last spring and after pulling the fangs it was made a pet and Mr. Gorman usually played with it. In taking it out of the box it struck him on the head and death resulted in three days.

## THE FARMER'S REAL GRIEVANCE.

Not a Lack of Money But of Banks. The farmer is in a bad way. Why has Canada no currency question, no cry for cheap money, and no campaign against gold? These are questions which Mr. Thomas G. Shearman answers very effectively in the London Times of September 11.

Briefly summarized, Mr. Shearman's explanation of the difference among farmers, which has led to the ridiculous demand for free silver, is that most farmers in the west and south are deprived of the benefits of banking facilities. They seldom use or use a check and are unacquainted with the benefits of banks and bank credits. For this reason there is a great scarcity of currency in most rural districts. The "country store" supplies in part and in a crude and costly way the credits which tide many farmers over from one season to another. Because of the great risk involved, the storekeeper, by charging high prices for his goods and by paying low prices for farm products, really gets from 35 to 40 per cent. interest on the credits given to the farmers. Of course, such interest eats up all the profits of a large class of farmers.

The country storekeeper really does a banking business in a clumsy and costly way. Local banks, such as exist in Canada, would furnish the farmers with credits at about one-fourth the cost of store credits. Why should bankers who furnish their crops for checks, deposit them in banks and take up their discounted notes in this way. The farmer knows nothing of this method of conducting transactions, and thinks that his needs can be supplied only by making more money—cheaper money, if necessary.

The farmers, therefore, make no efforts to obtain better banking facilities. Instead, they work and vote against banks and bankers every opportunity. They tax money and other loanable capital at two or 2 1/2 per cent. while demanding that interest be reduced to two per cent. They discount away the very money they are so eager to get. In some sections of the south it is 50 or 75 miles to the nearest bank. They prohibit branches from such places as Canada and Scotland, to the great advantage of remote country districts.

The farmers themselves are the greatest enemies to what is most needed in their communities—first-class banks of deposit and discount. Mr. Shearman makes this point clear. He says that Canadian farmers have suffered from the fall of prices and from every other alleged result of the single gold standard to the same extent as the farmers south of them. Yet there is no bimetallic league in Canada, and the cry for cheaper money is not heard. Canada has not only enough money to supply all of her own wants, she also lends such great amounts in the United States that jealous American bankers sometimes try to shut Canadian money out.

Mr. Shearman sees what too few seem to see—that the farmers have a real monetary or currency grievance. He has indicated what is probably the only way of giving relief. He offers something positive. That the farmers are not willing to take the only remedy for their ill and prefer the quick free silver and cheap money remedies only prolongs their sufferings and makes a rational solution of the money question more difficult and uncertain.

Just watch the great Mr. Bryan, the Silver Samson of the Platte, as he performs his world-renowned feat of raising the bullion value of silver from 67 cents to \$1.29 per ounce with his big "free silver" hammer. My, ain't he strong!

There is an American silver dollar. There are two Mexican dollars. There is more silver in each of them than in the American dollar. I bought both of them for that. What is the reason? The answer is, the American dollar is a limited coinage, backed by gold. There is another coin. That is a French franc piece. I paid 55 cents for that. It carries a little less silver than the American silver dollar. France and the United States are both gold standard countries. They keep in circulation a thousand millions of silver, and Mexico and China and Japan have not got one dollar of gold in circulation. The gold standard country can keep silver in circulation. The silver standard country can keep no gold. That is the example of every nation today. Gold all leaves the free coinage country. Gold and silver both circulate in the gold standard countries.—From a Speech by Senator Lodge.

The Declaration of Independence. Was written by the man who said "Just in principle will lead us to disregard legal proportions altogether, to inquire into the market price of gold in the several countries with which we shall principally be concerned in commerce and to take an average from them." But W. V. Bryan says it is disgraceful to talk about adjusting currency to the currencies of the world.

What The Ledger's Correspondent Records From That Pleasant Vicinity.

Mr. B. F. Wilson is on the sick list.

G. D. Wilson is said to be convalescent.

Charles Calver is reported ill with fever.

Mr. J. L. Bullock is quite ill at this writing.

D. E. Bullock and James Roe were in Clinch last week.

There is considerable sickness throughout the community at present.

Rev. Watkins preached to a large and attentive audience Sunday evening.

Our little village is improving in appearance as several new houses are in process of erection.

The country is rejoicing in this warm autumn sunshine after the cool rains of the past week.

Mr. and Mrs. A. W. Bramble, who have been visiting friends here the past two weeks, returned to their home in Warburton county Saturday.

TO CURE A COLD IN ONE DAY.

Take Laxative Bromo-Quinine Tablets. All drug stores refund the money if it fails to cure. 25c.

Edward J. Blatterly of Bourbon county and Miss Katie Knox of this city will marry today at the home of Mr. Patrick O'Leary in this city.

Mr. Thomas Haughey died near Fern of this morning, in his 71st year. He leaves two sons and a daughter, and the record of a well spent life. The funeral will occur tomorrow afternoon.

A prominent citizen of Chattanooga is to be tried by the male members of the Baptist congregation to which he belongs on the charge of violating the Church's laws by securing a divorce on statutory grounds.

Mr. William A. Byron, the former Republican who is now trying to bring out the falling cause of Free silver, spoke to a good crowd at the Courthouse last night. The LEXICON will not initiate the Popocratic papers by saying harsh things of a man because he acts as his conscience dictates.

"Mrs. W. H. Wood sent to this office the other day two cigars which were taken from one and the same kitchen. Did you ever hear of the like before?"

"Chapman Ward."

Certainly—at least you've told us so; but we must admit that we never did hear of the like before.

After meals you should have simply a feeling of comfort and satisfaction. You should not feel any special indications that digestion is going on. If you do, you have indigestion, which means no-digestion. This may be the beginning of so many dangerous diseases, that it is best to take it in hand at once and treat it with Shaker Digestive Cord.

You know that indigestion causes constipation, which causes pain and sickness. And that Shaker Digestive Cord helps digestion and cures constipation.

## A MAN-OF-WAR

Called to Watch Suspicious Vessels on the Florida Coast.

The Captain of a Cutter Threatens to Sink the Dauntless

If she Attempts to Show Her Main-Arm Determination to Put a Stop to Filibustering Expeditions—One of the Owners of the Commodore Dada.

JACKSONVILLE, Fla., Oct. 7.—The Cuban filibustering steamer Dauntless put to sea Monday with the revenue cutter Bontwell close behind, under orders to see that she did not stop in the St. Johns river to take on any of the arms or munitions that are stored up.

Before leaving port the captain of the cutter notified the captain of the Dauntless that if he made any attempt to run from the cutter while within the maritime jurisdiction of the United States he would sink her.

The captain of the Dauntless reported to the collector of customs that he was going to Brunswick to pull off the sand bar several vessels that were driven ashore by the recent storm.

It is reported as almost a certainty that the Dauntless will go to Fernandina, take on a supply of coal and then go to meet the Laura and transfer the men from the Laura to Cuba.

The United States-of-war Newark arrived off the St. Johns bar Monday night, with instructions to follow the three vessels, the Dauntless, Commodore and Three Friends, if they should cross the bar. The captain of the Commodore has applied to the collector of customs for permission to put to sea. Collector Bibbee has not yet granted the permission. One of the owners of the Commodore Monday informed the collector that the steamer was going to sea and that if the cutter Bontwell attempted to stop the Commodore the cutter would better load with soldiers, shot, for they did not intend to be bulldozed any longer.
